

Triscendance Product Offers

What is it?

Delivering Results is a 60-90 minute interactive seminar to review the ways in which we deliver results and identify straightforward actions that can be taken to improve the performance of a team or work group. The conversation will be led by one or more partners of Triscendance.

Who is it designed for?

The seminar is for Leaders, Leadership Teams and other staff who have responsibility for delivering exceptional results with limited resources. They are looking to increase their effectiveness. Participants may have any role within the organization.

Why is it needed?

We live and work in a network of conversations and commitments. To deliver powerful results, we need to have effective conversations, make clear commitments and deliver on them. When we are clear on what we are committing to, and effectively manage our commitments, we deliver satisfaction for ourselves and those around us.

Seminar Structure

The format of the seminar can be flexible to meet the needs of the participants, and will consist of the following:

- Introduction to the conversations in organizations
- A simple model of how actions are delivered
- The role of trust in the successful delivery of results

The seminar may be tailored to focus on specific challenges the organization is facing. Longer seminars allow time for participants to discuss the challenges they are facing, using the ideas presented.

Promises of the Seminar

As a result of the workshop, the participants will be able to:

- Recognize the way we use language to coordinate action
- Identify opportunities to increase their own effectiveness in delivering results
- Identify areas for further exploration
